Video Game: Self-reliance
Producer, Lead Programmer
Developed a sex education video game. The game has gained DAU up to 30,000, and a total number of 300,000 users after the initial release. The game is also reported by various media including CGTN(Top Chinese Media).

C#, Unity3D, PlayMaker, Python, Flask, Vue, Vuetify, visjs, Postman

1: Oh Yasushi is my name's english transition in the original order. My legal name is Yasushi Oh, which is the western-centric english translation of my name.
2: Only my most significant work experiences and projects are shown; the full history of my past work experience and projects is available here

GREAT STUFF

Oct 2018 — Present

Eroducate
Co-Founder

A student organized sex-education organization which aims to spread sex-education via video games. We have over 7,000 subscribers in total on all of our social media sites. Our video game Self-Reliance has gained great attention in China, receiving reports from various media.

Sep 2016 — Jun 2020

More Club
Co-Founder

More club is a school club I started with my friends in High School. Our social media account DailyMore, posting funny stories related with the school, has gained over 900 subscribers. In the end, we have managed to create a new More Club oriented eco-system in our high school where the students and teachers are closely related with our products such as GPA calculator, Sodex Food Delivery App, and more.

Sep 2018 — Oct 2019

TEDxSHSID
Co-Organizer

Organized TEDx event in my high school with an excellent team; mainly in charge of finding technology field speakers and the technical aspects of the event(e.g: lighting management, digital content organization); invited several leaders in the K-12 Programming Education field.

HONORS & NEWS

China Thinks Big Young Innovator Award (1 out of 30,000 Nationalwide)
Sex education game developed by Chinese high-school - CGTN
Chinese High School Students Release Interactive Sex Education Game - Radii China

ONE MORE THING, I ALSO TAKE PICTURES
